TORONTO'S MEMORABLE VOTE

Toranto electors went to the polls this our in the largest numbers in the history of heir city. A year-ago only 34.5 per cent of heir city. A year-ago only 34.5 per cent of heir qualified to vote at the municipal ele-tors cost their ballots, but this year 20,000 went to the polls to roll up a historic total of 146,424 votes.

There may have been a few minor co which brought some more electors out, but the main cause of the heavy polling was the fear on the part of citizens over communism, about which so much has been heard of late Tim Buck, Communist, though he polled 400 more votes than last year, took this year eight place instead of fifth in January 1938 contest for the four-man board of control and fell more than 4,000 votes short of the number received by the successful fourth

So large a vote this year ! indicates that Buck's following has not materially increased and that he would probably be further by then ever of gaining a seat if anything or a complete vote on the part of the ele ors should be possible. One of the 1938 alderman, who is a c

munist, was reelected, but the other five condidates for office (which number in-cludes Buck) were defeated. The large numng office was taken as a proof of their bid for a 'say' in Toronto affairs.

Toronto, leading city of Canada and the copital of Ontario, took no chance this year in having a communist tinge to control of civic affeirs. That is not to be wondered at for if any city should know the value of the British democratic system, Toronto is that

British democratic system, Toronto is that on the search of the sort to 1 along the search of the sort to 1 along the search of the search of

biphioss.

The systs of Canadian municipalities have been an Toronto during these recent days and there III general satisfaction everywhere in Canada that the voters in Toronto have pronounced so clearly where they stand.

DEMOCRACY IN HONORS LIST

The New Year's honors list was one of the songest on record, as might be expected or a time when there are as many octre open-cies at work in such an Empire as Britain. All the work of the such as the coate of the such as the coate of the state, in the such of the such

DANGER OF FIRES

Fire claims many lives at this time of the sor. In the news from time to time in the inter months the trogic story is told of some with being atthes whoter months the tropic story ill told of some foundly being either wiped out when their hame was burned or of the deaths of some of the members of a family. A good many of these first occur in places where it is almost impossible to obtain casistance unless from a great distance and then too lete. Care with fires is absolutely necessary during the winter expectably and at all other times.

ENCOURAGEMENT

Don't be downhearted, try ogoli Meet trouble with a grin; Each failure is another rock Surmounting which you'll win.

It's not the mon who says "I con't!"
But he who says "I will!"
Who, lobouring hand, attains the top
Of high Ambition's Hill,

And when success is yours to claim
Don't feel you've done your deed;
Lean down and lend a friendly hand.
Help others to succeed!

Why You Save Money **Every Time You Drive In**

Every motorist wonts the maximum of per-formance, solety, comfort, and pride in ownership from his car—and he wonts It at the lowest pos-sible cost. Only one way to eat your automobile cake and still have it. Give the car the proper care at the proper time.

There are certain adjustments every car needs periodically. Certain parts should be subricated at 5, 10 and 15-thousand mile intervals. Worm and broken parts, however minor, should be replaced or repaired without delay.

The average motorist does not remember to have these things done—or defers doing it—unit a general breakdown puts him on the street, on as so many others—bring your can her for regular inspection and fubrication. We keep on individual service record on it, call to your others for the things that should be born to the control of the co

Our service department is completely equipped with the most modern tools and "mochinest. Our service stoff is experienced and reportable. We assume complete responsibility for your settingtion with your corr—and the cost of keeping it imperient condition.

A NEW YEAR'S PRAYER
Trembling, we hold the New Year!
With pages white;
Help us, Lord, to fill them in
As in Thy sight.

Bewildered by the mists of life, We think it night; May we remember Thou const soy:

May we remember Thou "Let there be Light."

At the cress-roads Thou'art standing
To aid our choice;
Quiet us that we may listen
To hear Thy valce.

We flounder at the base of things To do and be; Spur us to climb till we behold The open sec.

The open sec.
Heavenly Fother, we are weak,
The way is long;
Help Thy children lean on Thee,
For Thou art strong,

News Of The World As Told In Pictures

The Story of OD and AD

and the AUTOMO OD and AD were machinists many years ago. One day, at a fair, they saw a buggy with an engine in it. They saw many ways to improve it, and each decided to build an auto mobile. But when it came time to sell their

How OD Tried to Sell His First Automobile

first cars, OD and AD had different ideas.

OD invited all his friends and ghbors to his house. He drove automobile around the block and gave them a ride. They were thrilled. They wanted to buy it. But when they learned that it cost \$3,000, not one of OD's friends could pay such a high price.

How AD Sold 10 Automobiles

AD had also spent nearly \$3,000 in building his first car? He knew that only a few people could afford so high a price, and to find them he mure thow his car to a great many. So he advertised that he would demonstrate his cas, the following Saturday afternoon. People came from miles around. AD ran his car to pand down the street. Afterward, ten men wanted it. AD told them that by making ten cars he could cut to costs and redpec his price to \$3,500. So he hird several men, rented a building, and started making more and better automobiles.

How OD Finally Sold a Car

OD heard that AD had sold ten care, so he decided to try again. When his second car was finished, it had cost him almost as much as the first. He showed it to as many people as he could see and after a long time sold it for just about what it had cost him. In the next five years OD built several more automobiles, but always by the time his cars were finished AD was making better cars for lower prices.

How AD Sold 10,000 Automobiles

AD decided that if he could make care by the hundreds, PALP decided that it he could make care by the hughred, be could lower the cost and add still more improvements. So he appointed agents and advertised in other cities. In this way he was able to tell the story of his car to thousands and thousands of people neither he nor his agents had ever-een. The more agents he appointed, and the more he advertised, the more people came in to try his car, and this more cars he sold. And the more cars he built, the better

he built them, and the less they cost. By 1911, AD was making such a good car for \$1,500 that he sold 10,000 that year.

Why OD Gave Up Trying to Sell Automobiles

OD now saw that he could not possibly make cars at low cost by building only a few each year. Nor could he sell enough to make more by telling people about them one at a time. So he decided to go back to work as a mechanic. He applied at AD's factory and was promptly

How AD Sold Millions of Automobiles

AD now realized that there were millions of people w would buy his automobiles if the prices were only lower. He also knew that if he could build hundreds of thousands of also knew that it he could make them better and at less cost. So he enlarged his factory, employed more men, and advertised to millions of people all over the country. By 1921, he was making a fine-looking car with a six-cylinder more men. and a self-starter. And the price had been reduced to \$1,000.

AD's profit per ear was now very small. But he sold so many care that his business was successful. And, as prices became lower and lower, millions of people who had never dreamed they could afford automobiles were able to own and enjoy them.

By 1938, AD was making the best and finest looking car he had ever built—and the price was only \$750.

AD Tells OD How It Came About That

ONE DAY OD went into AD's office at the factory. OD said, "Remember the time we saw the horseless carriage at the fair? Who would have believed that in 30 years almost every family would have an automobilel'

AD said, "It never would have been possible without advertising. All the advances in manufacturing would have been futile without advertising to tell the story. As it helped us to sell more and more cars, we were able to make them still better and sell them at lower prices. As a result, the advantages of an automobile are now enjoyed by people of small means just as they are by the well-to-do."

So Many Families Now Have Automobiles

"But you spend millions for advertising," said OD.

"Yes," said AD. "But we sell so many cars that ouradvertising costs only about \$15 per car. That is not much when you remember that in 30 years the average price of a car has been reduced by more than \$1,500. So, advertising has really helped to reduce prices and year after year has helped make it possible for millions of people to have better cars for less money."

NEWSPAPERS HAVE REEN CREDITED WITH WORKING WONDERS, and rightly so. Newspapers great and small have welcom entry into millions of homes, so much so that families who formerly depended upon the dollar-a-year weekly now must have the daily newspaper at five or more dollars for twelve months. The daily newspaper has become firmly entrenched in the homes of the nation and some member of the family is always alert and waiting for its delivery at the appointed time. If the paper is late comment is aroused in the household, and II II fails entirely to arrive some one is sent out hurriedly to secure one from a neighbor or the nearest newsstand. Times have changed within the memory of man. Yes, indeed, the weekly newspaper used to be a family bulwork of education, entertainment, and as a moulder of public opinion, introduction of semi-weekly newspapers did not find fovor for most subscribers preferred their paper all in one piece instead of in two parts, as it seemed the two editions a week were. The telephone come in, the outomobile, the phonograph, the radio, among other improvements, and the weekly newspaper, full of years and honour, went out and the daily newspaper is here with its wan-derful influence and splendid services.

Says the Salade Teq Company of Conoda Limited:
"The fact that we have advertised continue-custy in the daily neepopers of Coronic linear this business was founded in 1872, speaks for Itself. We value them as a fundamental advertising medium."

What more need be said, except that the experient of the Salada Tea Company of Canada Limited is typic of that of many other old-established Canadian tin who, by the persistent use of newspaper advertising, hands the names of their products household words.

The reader's attention is called to a presentation on another page of reproductions of Solado newspaper advertisements which have appeared during the 46 years of its steadily growing popularity, illustrating statements made in this criticle.

In their concise reference to daily newspapers as a fundamental advertising medium, my clients, Salada Tea Company of Canada Limited, state the case completely. All that I might add is that daily newspapers are the most flexible of advertising media, particularly where quick response is required.

Thornton Purkis, Advertising Counsellor

The experience of the Salada Tea Company of Canada Limited is typical of that of many other old-established Canadian firms who, by the persistent use of newspaper advertising, have made the names of their products household words.

U. S. OPINION ON ROME VISIT

Opinion on the visit to Rome is taking more and more a favorable view. For instance New York Times states that the visit was worth the effort and that to coll it a failure would be in the line of error. Chamberlain's convic-tions have not been weakened, the Times says and there is no parallel with Munich for nobody is making as present threat of war, nor is there any early likelihood of the substitution by Mussolini of deeds for words. That Mussalini may one day obtain, in some degree, something of the total for which he yearns, is possible, but he has no immediate ans for fighting England."

THE LAND OF MAKE BELIEVE

Who has not journeyed owey! away!
A-sail on a ship of dreams,
To the enchanting land of replicabelieve
Addiff over silver sireams?
A land where the feet of childhood strey—
A mystical wanderful land—
Where long-lost dreams of least come true
As touched by a fairy wand?

The fret and the frown of a weary world Are lost III its restful haze, As we wonder ofer on the shodowy shore Whose gleens gild life's distant days; Oht deem not the blissful hours mis-spen. That are spent on that blissful shore, For to those who no longer journey there. To them youth returns no more.

HARBOR FRIEZE

The horbor has a faggy face But hides its faggy fists: The new massics iii its grace Come gleaning through the mists

It stores at clouds whose charging builts Are rooming chino skies: On plates of blue lie black see guils With manning in their eyes.

The little steamboot, like a dream Of distance through a spinet, Moves up the tightrops of a gleam, The skyline of a minute.

She comes from thirteen wicked coasts, Five comered is her heaven, And every man abcord her boasts The sins that number seven.

And so she storts and snorts in rhyme And spits at folling lands And beats the thin, tin sides of time With hat and faggy hands.

The notions are watching what will hopen in Germany since Adolf Hiller has "droped the pilot", -Dr. Schacht, head of the elchabank, It was Schacht who has directed German finance, kept Germany from going the way of inflation, and has kept the Gernon economic system from crushing, according to experts of other countries.

Some see some connection between the dropping of refugee negotiations and the fir-ing of Dr. Schacht by Hitler as these events ing of Dr. Schocht by Hitter as these events occurred on the same day. The German plan for refugees has looked to many like a system of ransom. The German exchange system is said to have become desperate. A ferviorable belonce which enabled her to bury foreign raw material which she needed, has dispo-paned, Lock of copper, iron, and lead, will street days in the character and intention with these days in the same production. slow down her industries and interfere with

EXTERMINATION

Japan has warned any who become her enemies that she has no alternative but to

But extermination ill a big task. Man for generations has been trying to exterminate sts'but he never quite succeeds in:killing the last one.

Nippon has found that she is having a time with the Chinese situation, enough to tex her resources: Various foreign opinions held, some that the Chinese connot win, ers. hold that Japan connot win, others t both sides will be impoverished and that threat to close the "open door" will be inter the close the "open door" will be as there will be a good need for western a and Japan when the undeclared war

Meanwhile Chinese guerniller, the regular comy, bandit crowds, are waging ver on the Japanese Forces of occupation and Japan is tidd up for a time.

What Russie is doing or is going to do remains unknown. She is no doubt keeping her eyo on the scame before her in the For East.

Japan is at a full-time jet of trying to obsorb that portion of the radical flow, which has of her internst is followed up by Chinese activity.

MEMORIAL TO LATE KING .

Their Majesties the King and Queen and Queen Mary have approved the British me-morial for the late King George Fifth. Pictures of the model indicate it as a manument tures of the model indicate it as a monument of grace becauty with the figure of the late King standing in an arch of Gothic architecture. The designs symbolizes something of the spirit of this late beloved ruler and his love of justice and the finer principles of life as shown in his deeply religious nature.

In Praise of Famous Names

The manufacturer of any good product, who advertises it consistently in the daily newspopers can, in the course of time, make his product famous.

Everybody knows and uses products whose names are fumaus because of the vision, fall in courage and enterprise of the owners of them. They were not furnous in the beginning, but had been always to the course of persistent observations and the course of persistent oberstains in daily reversippers. The goodwill value of these names is followlast; an unch, sindeed, that one or more of the plants in which these products are manufactured good be destroyed with less loss to the owner than the loss of the trade name.

You, too, can build sales and goodwill for your products and services by advertising in the Canadian daily newspapers.

This advertisement was prepared for the Canadian Built Newspapers Association by Thursdon Purkle

In Praise of Famous Names

The manufacturer of any good product, advertises it consistently in the daily ne papers can, in the course of time, make product famous.

Everyloody knows and uses products whose names are famous because of the vision, felink, courage and enhances of them. They were not formas in the beginning, but the owners proceed of pensistent observations of the course proceeding for pensistent observations in daily newspapers. The goodwill value of these names is following so much so, indeed, that one or more of the plants in which these products are monufoctured could be disserted with less tost to the owner than, the less of the trobe names.

You, too, can build sales and goodwill for your products and services by advertising in the Canadian daily newspapers.

In Praise of Famous Names

The manufacturer of any good product, who advertises it consistently in the daily newspapers can, in the course of time, make his product famous.

Everybody knows and uses products whose names are famous because of the vision, lidith, courage and enterprise of the owners of them. They were not famous in the beginning, but the owners proceeded for seeks beginning to the owners proceeded for seeks beginning to the owners of the owners are considered for the owners of the owners of the owners owners are the owners of the owners own

You, too, can build sales and goodwill for your products and services by advertising in the Canadian daily newspapers.

BIG BUSINESS
FROM SMALL ADS

mail newspaper advertisements, planned intelligently, used frequently, can boost sales for any advertiser. It all depends on how the job is done. Take Oakite, for example, whose merchandising manager, Mr. Conolly, says: "Results from our small space newspaper campaigns have been so satisfactory that we've increased our

newspaper appropriation each year." Oakite uses small newspaper advertisements steadily from January right through the year...as long range guns in their selling artillery and as shock troops to be sent in overnight when needed. Insertions vary from one, two, three or more times weekly depending

The pulling power of Oakite's small newspaper advertisements is shown in many ways. For instance, this year was the first time Oakite did any newspaper advertising during the month of wary. Using the same size advertiseents, retaining the same distribution, Oakite registered a 37% sales increase in January, 1938, over January, 1937...And sales have been climbing ever since. Oakite, like so many other concerns, has found that newspaper advertising sells more goods to more people ... quickly, surely, economically. That's what makes newspapers the primary advertising medium.

A Statement

TO THE BUREAU OF ADVERTISING:

"Oakite sales, for the first six months of 1938, are, to put it moderately, tremendously ahead of last year, and in many territories the first six months' sales have come close to the entire last year's business. We're looking forward to the largest sales year in our history.

"And this is largely attributable to our persistent use of small advertisements in newspapers... Results from our small space newspaper campaigns have been so satisfactory that we've increased our newspaper appropriation each year. This year it's 67% over 1937...and we're using papers from California to New York..." Frank A. Conolly

THESE TWO NATIONAL DISASTERS GO HAND IN HAND. We have been in me imperient measure in every village, from and city, throughout the length and broadth of our fair country, and each succeeding year sees more added in the list.

A BANK PRISIDENT SATS:

IN THURSDAY'S ISSUE of the Toronto Globe and Mail a statement was made by one of our bank presidents, which, his part, says:

SOMETHING FOR NOTHING INEVITABLY AND INSCAPABLY MEANS ROBBERY OF THEIRTY PROPLE AND PUTS A PREMIUM ON INEFFICIENCY AND IDLENESS. DISASTER IS ITS QULY END.

Each out overy man of an here to pay in the form of RINT or TAXATION for the priviley of fixing in our exapacity willess, two no city. Each real-dent Independent Baker, hes, down through the years, cantributed to the pissent veilence of the community, and hes been sole to mediate in which of the control of the privilence of the control of the privilence of the control of the sole of the privilence of the privilence of the sole of the privilence of the privilence of the control of the privilence of the privilence of the sole of the privilence of the privilence of the privilence of the community.

UNFORTUNATELY, through your patronage of sariade competition, emeanting, for the most part, from our mojes cities by mill-controlled backers, who is turn one presided were in most cases by beak presidents—your follow cities and temporare one being steedily and sarely crowded out 17 Oct 17th man which DGFONCE BISINISES IN YOUR MUN-FRIVILEGE OF CONTROLS SARESSES IN YOUR MUN-CIPALITY — SOMETHING FOR NOTHING.

MR. AND MRS. BELLEVILLE CITIZEN

THEREFORE MR. AND MRS. BELLEVILLE CITIZEN WE ASK YOU, in fairness to yourself and your family, to BUY ONLY BELLEVILLE BAKED GOODS. In se doing you may holp to keep your neighbor off the roller lists, and keep your already TOO HIGH TAXES FROM COING HIGHER.

THIS IS A PERSONAL APPEAL BY THE

YOURS FOR A BIGGER, BRIGHTER AND BETTER BELLEVILLE, all for one and one for all.

NEW YORK CITY,

TO MOVIE FANS IN BELLEVILLE:

THE ONTARIO INTELLIGENCER is the quickest way I know to tell you not to miss "THE COWBOY AND THE LADY", our new Samuel Goldway production, The Cowboy, that's Gary Cooper, and The Lady, that's me.

I tell Gary I love him and never want to see him again, so we get married; we honeymoon an a cartle boar, part at a hot-day stand and make up in swanky Miomi where the scrapping starts all

Gary's great and there are loughs galore from Patsy Kelly and Walter Brennon. We'll see you all, Wednesday at the McCARTHY THEATRE. MERLE OBERON.

WAR - - KIDNAPPING - - POLITICS - - DISASTER - -

BUT it's the LITTLE THINGS that count....

New drapes for the guest room, and Junior's first haircut. A new recipe for peach pie and new pans for baking it. A picnic at the beach, and a new hat for the weekly bridge. Every day events? Of course! But they're the things that make life livable!

What's a war in Illyria and another Arctic expedition, compared to the thirill of the first glimpse of the family that's moving in next door, and the delivery of a shining new refrigerator? What's a royal wedding, and twelve rooms filled with gifts, when Anne has her fifth birthday tomorrow? They're interesting enough, something to talk about, to wonder at, perhaps, but pretty far away from that most important spot and the people who live there . . . your own home.

That's where your heart is, and that's where the real thrills lie, in the things that concern you and the people who live around you, next door, in the next block, anywhere in town. There's news about them in every issue of the daily Ontario Intelligencer in "inside page" stories—and in every ad too, for the ads in the Ontario Intelligencer are news! There's news about new clothes for the family, and new food for the table, and new furniture for the home. There's news about new entertainment, and new ways to get to it. There's news about something new on every page, from the latest dispatch on the front page to the new shoes for Anne on the last... all written to you and for you, put up in a neat package and delivered at your door-step every day.

Beyond the lake the gleaming lights
From neighbor's windows shine;
Across the tonely night and drear
As one by one their lights appear,
They seem like friends of mine.

And the' the winter winds blow cold,
The' winter reigns supreme and bold,
The lighted windows glow;
Their genial warmth spreads to the heart,
A hoppy thrill their lights impart
The' load the tempests blow.

The' loud the tempests blow.

These lighted windows seem to speek
To all who would a hoven seet,
And would no longer room;
Such beccon lights across the dark,
Adown the years a pathway mark
To days of youth and home.
